Volume 2

What is Faith?

Faith is believing in something even though you cannot see or touch it.

It is knowing something is real without holding proof.

Now faith is confidence in what we hope for and assurance about what we do not see. Hebrews 11:1

Why do we need faith?

Faith is important because it is how we believe in God when we cannot see him.

We believe there is a greater power than ourselves, and that God is our creator.

When we have faith in God we are showing that we trust in him.

And without faith it is impossible to please God, because anyone who comes to him must believe that he exists and that he rewards.

Hebrews 11:6

Each of us can grow our faith and become more dependent and trusting in God.

Growing our faith helps us to grow our relationship with God.

How can I grow my faith?

Pray to God daily.

Share your concerns with him and trust in him.

In him and through faith in him we may
approach God with freedom and confidence.

Ephesians 3:12
